4 September 1980

Dear Sir,

APPLICATION DA/78/677: RECLAMATION OF DISUSED CHALK PIT BY DISPOSAL OF WORKS WASTE, LAND TO THE WEST OF SWANSCOMBE CEMENT WORKS, SWANSCOMBE

The County Council as County Planning Authority has now considered the details submitted by you pursuant to condition (v) imposed on the permission granted on 5 April 1979 in respect of the above-mentioned application.

The Authority hereby approves the general framework for landscaping boundary treatment, the final restorations scheme, and general programme for implementation as submitted in your letter dated 26 March 1980, as amended by your letter of 6 June 1980 and as supplemented by the clause contained in your letter of 28 July 1980.

You are requested to (1) bring the levels up to that required for landscaping as soon as possible in each phase so that restoration proceeds as quickly as possible; and (2) use the Ministry of Agriculture's advice for initial management of the soil if Thanet Sand is to be used as topsoil.

Yours faithfully,

(Sgd.) S. Byford

for County Secretary.
